WIINDWARE
CRAFTED WITH EXCELLENCE

GEALAN FACTORY - TANNA, GERMANY

Having been a quality conscious organization for years we have never ever thought to compromise on our quality parameters no matter what. Hence, we have a set up of MURAT at our fabrication unit with state of art technology; A world renowned name in UPVC industry.

We can produce up to eighty windows in a shift of eight hours and hence have a capacity to fulfill all your requirement.

- * For PVC and Aluminum profiles cutting.
- * Solid cast construction for length and angle accuracy.
- * Ultimate cutting quality.
- * Automatic tilt movement of the saw heads to 45° and 90°. Angles between 45° and 90° can be adjusted manually and fixed easily.
- * The 450 mm. saw blade diameter enables to cut wide profiles as well as two 80 mm. profiles at the same time.
- * The saw blade feed speed can be adjusted.
- * Ability to cut 4,200 mm. length.

- * Strongly welds two corners of PVC profiles with single operation.
- * Fixed left head allows welding at variable angles between 60° - 180°.
- * Manually movable right head welds 90°.
- * All operations are controlled by the digital touchscreen display.
- * Long lasting heating plates distribute heat homogenously.
- * Ability to clean the heater plates easily.
- * Long lasting Teflon usage and easy change by special Teflon system.
- * Practical welding fixture changing system.

Advantages of WIINDWARE Window

Durable

Windows made from PVC-U profiles are easy to clean and require very little maintenance. Resistant to most climatic and environmental influences, they have a long service life.

Individual

The choice of profile geometry, opening mechanism and window pane subdivision influences the individual character. With GEALAN profiles even unusual window shapes are possible.

Comfortable

Windows made from GEALAN multi-chamber profiles ensure that the heat stays in and the noise out. They provide security and comfort and produce an unmistakable living atmosphere.

Versatile

To take account of different tastes and architectural styles, modern window technology can be realized not only in white also in wood-grain foil.
